

KINGS HILL GOLF CLUB

Recording of Non-Qualifying Scores

Kent Ladies Golf Union, following a decision by England Golf, requires all players to return all scores in non-qualifying competitive golf played away from Kings Hill. This will assist the handicap committees in annual handicap reviews but will not be used to regularly adjust your handicap. Failure to return these scores may result in your handicap being suspended.

What do I need to do?

After playing a **non-qualifying individual** or **team** event **away** from Kings Hill, you must email the handicap committee with the following information.

<u>Player's Name</u>	<u>Date of Score</u>	<u>Venue</u>	<u>Competition format</u>	<u>Tee played</u>	<u>SSS of Course</u>	<u>Playing Partner/s</u>	<u>Score Returned</u>
Jane Marr	30/01/2017	Dale Hill	4BBB	Red	71	Denise Harker Judy Leadley-Woods Alice Gazet	42

The handicap committee will retain the scores for the year for use during handicap reviews.

Why has this been introduced?

This will help promote the integrity of the handicap system and maintain player confidence in handicapping.

What competitions does this cover?

This request covers any away competition which is non-qualifying and applies to individual and team events, including mixed competitions. This covers better ball competitions but excludes foursomes, greensomes and texas scrambles and all match-play.

But if playing 4BBB I may not always return a score?

You still need to return your team score for consideration by the handicap committee at the annual review.

Do I need to return society scores?

Yes. If it is played away from Kings Hill using your Congu handicap and played in competition conditions the score needs to be returned.

What about golf played outside England?

No – only competitions played on Congu measured courses apply.

What about my weekly swindle?

No – these are played at home and it is not the intent to impact social golf. However, handicap committees may take known swindle performance into account at annual reviews.
